SKILL-BUILDING ACTIVITY:

What are you going to learn (objectives)?	How are you going to learn it? (Resources and Strategies)	The target date for completion.
- Learn basic Project Management - Apply project planning and teamwork	- Read the provided lessons - Watch video tutorials/meet explaining the terms and processes. - Take down notes while reading. - Collaborate with my group to create a sample project plan and WBS. - Assign roles and tasks to each group member	July 8 To be decided after the teacher assigns the group and gives project timeline
Summarize what you want to be able to do or know when completed? - Understand what this subject is and why it is important. - Know the meaning of terms like scope, risk, milestone, Agile, and project plan. - Apply what I learned by creating a project plan and WBS. - Use a project management tool to manage a team project and track our work.	What do you have to do to meet each of the objectives defined? - Study the module and take notes on the terms and benefits. - Collaborate with my groupmates and create a sample project plan and WBS. - Assign tasks to my team members and monitor progress.	When do you plan to complete each task? July 8: Finish reading about what really the subject and know the meaning of terms in it. After the group assignment and according to the timeline given by my teacher.
How are you going to know that you learned it? (Evidence) - I will complete a quiz about project management terms and submit a summary of my learnings. - I will present our group's project plan and WBS in class. - I will submit pictures/documents showing the tasks and progress.	How are you going to prove that you learned it? (Verification) - My teacher will check my quiz and summary for accuracy. - My teacher and classmates will review the project plan and WBS during our presentation. - My teacher will check the documents to verify that I applied what I learned.	Advising faculty member feedback (Evaluation) - My teacher will give feedback on my quiz score, project plan. - My learning will be evaluated based on understanding, teamwork, and the correct use of project tools.
What is the specific task that you are to complete to demonstrate learning? Take a quiz, submit a summary, present a project plan and WBS.	Who will receive the product of your learning and how will they evaluate it? Teacher and classmates will review the quiz, summary, presentation to check for understanding.	How well the task completed? Provide an assessment decision My teacher will assess if objectives were met through clear concepts, and teamwork.

I have reviewed and find acceptable the above learning contract
